Professional Summary

Data Analyst with 2.5+ years of experience transforming raw data into actionable insights. Skilled in SQL, Python, Power BI, Tableau, and BigQuery. Proven track record of reducing reporting time by 30% through automation. Passionate about solving business problems with clean data, compelling visualizations, and data-driven decision-making.

Education

Eastern University, Bangladesh.

Jun 2018 - Jun 2022

B.Sc. in Computer Science and Engineering

Relevant Coursework: Database Systems, Data Structures & Algorithms, Data Mining, Machine Learning, Object Oriented Programming, Information Retrieval

Skills

Languages: SQL, Python, DAX

BI Tools: Power BI, Tableau, Looker Studio, Excel (Advanced)

Databases: MySQL, Google BigQuery.

Data Engineering: ETL Pipelines, Data Cleaning, Data Modeling, Data Transformation

Other Tools: Excel (Advanced), Google Sheets, Power Apps, Git, Jupyter Notebook.

Work Experience

Junior Data Analyst | Save the Children

Apr 2026 - Present

- Spearheaded Azure SQL Database data migration for the HF Application Development Project, ensuring full data integrity throughout the transition.
- Developed a Microsoft Power Apps solution to digitize internal data collection workflows, enhancing operational efficiency across programme teams.
- Designed and delivered the E-Asset Power BI Dashboard for SEIP (Skills for Employment Investment Programme), providing real-time KPI visibility and improving asset control and condition monitoring efficiency by 80%.
- Author and optimize MySQL queries to extract, clean, and manipulate structured data for reporting purposes.
- Supported data governance and quality assurance initiatives to ensure data accuracy and integrity.

Junior Data Analyst | Onoda Inc.

Dec 2023 - Mar 2026

- Automated daily reports using SQL and Python saving 10+ hours/week.
- Built interactive dashboards with Power BI and Excel for project KPIs.
- Conducted statistical analysis to identify patterns in emergency service calls, reducing incident rates by 25%.
- Collaborated with HR and Engineering to deploy performance monitoring systems.

Project Work

• **Amazon Fulfilment & Revenue Analytics:** 🌐

Mar 2026

Tech Stack: Python (pandas), ETL, MySQL, Power BI, DAX, Power Query.

Built end-to-end ETL pipeline with Python and MySQL. Created Power BI dashboards for sales, logistics, and revenue forecasting.

• **Adventure Works Internet Sales Analytics Dashboard:** 🌐

Sep 2025

Tech Stack: Power BI, DAX, Power Query, Excel.

Developed Power BI dashboard analyzing sales trends and customer segmentation using DAX and star schema.

• **Analysis of Flipkart E-Commerce Data:** 🌐

Jul 2024

Tech Stack: MySQL, Power BI, Power Query, DAX, Excel.

Cleaned and analyzed Flipkart product data using Excel and MySQL. Built Power BI dashboards for category performance and pricing insights.

Awards and Certificates

- Data Science and Machine Learning Specialization on Grad Bunker Accademy.
- Data Engineering Specialization on Grad Bunker Accademy.
- Mastering SQL with BigQuery & Meta-base on Interactive Care.
- Power BI Professional Certification on Grad Bunker Accademy.
